Music by Code

Step 1: New file

1. First, you need to open the offline editor. When you do, it'll look something like this:

2. Click on the word 'Events' which will look like this:

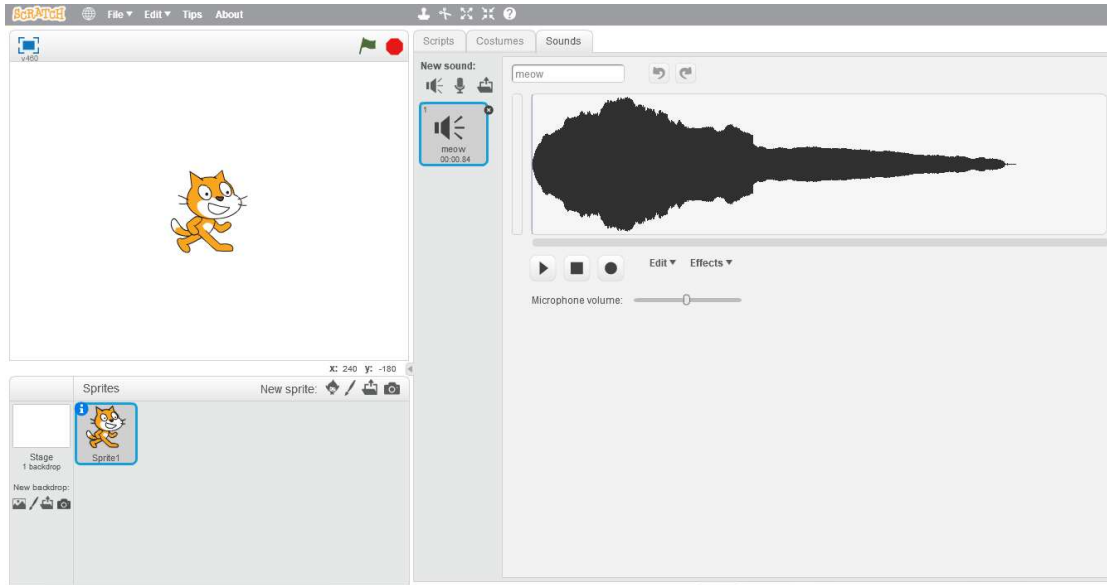

3. Drag out the `when Green Flag clicked` block onto the editor.

4. Click on the tab which says 'Sounds'.

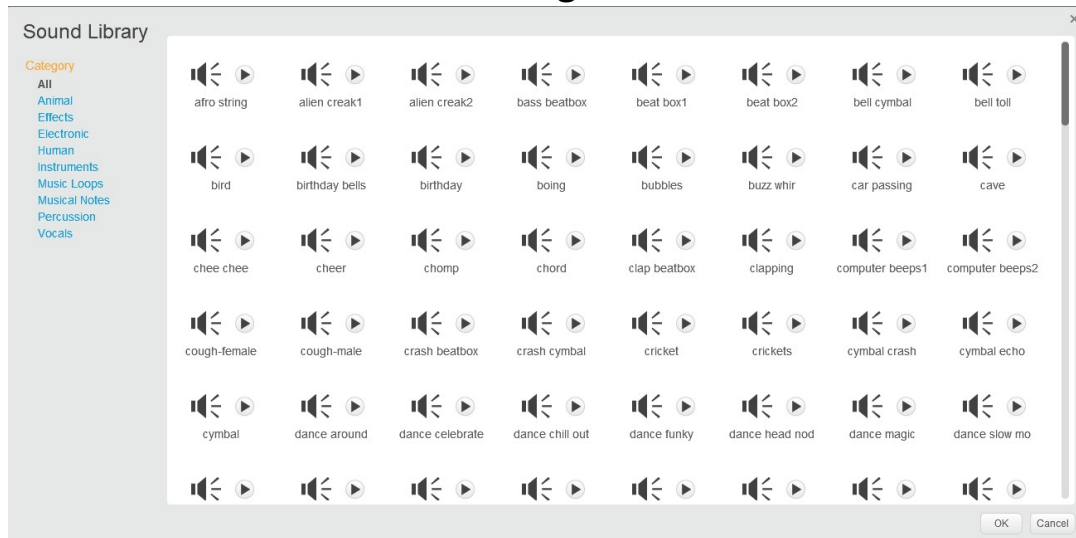

Your screen should now look like this:

5. Click on the little speaker icon that looks like this:

You should now see something like this:

6. Click on 'Musical Notes'.

Your screen should now come up with a different set of sounds.

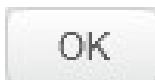

7. Scroll down a little bit.

8. Choose 'E piano'.

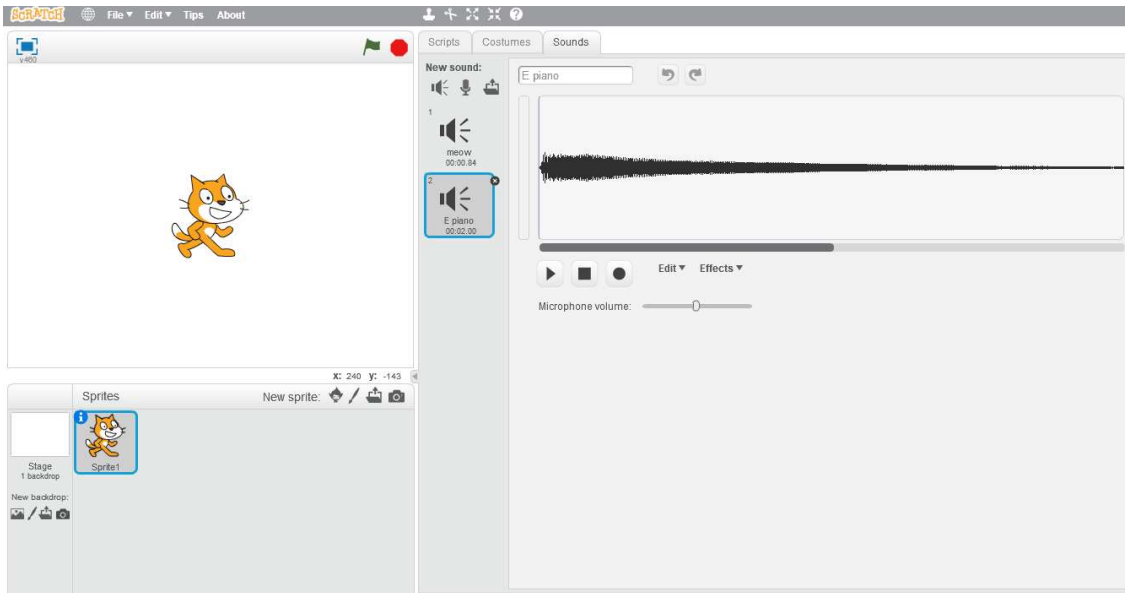

E piano

9. Click 'OK'.

Now you should see your new sound in the 'Sounds' tab.

10. Repeat steps 5 to 9 two more times, but on the 2nd time, choose 'D piano' instead, and on the 3rd time, choose 'C piano'.

11. Click on the 'Scripts' tab, so that you can get back to coding.

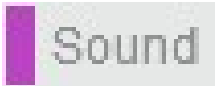

12. Click on the word 'Control'.

13. Drag out 3 `repeat 10` blocks. Change the `10` in one of them to `2` and change the other two to `4`.

14. Click on the word 'Sound'.

15. Drag out 3 `play sound C piano` blocks into the `repeat 2` block. Change the 1st block to `play sound E piano`, and change the 2nd block to `play sound D piano`.

16. Drag that below the `when green flag clicked` block.

17. Click on 'Control' again, and drag out three `wait 1 secs` block.

18. Drag each one below each `play sound` block.
